

OBSOLESCENCE NOTICE

7th February, 2011

PRODUCTS CONTAINING SMART PCMCIA SCSI RECEIVER BAYS

SMART Modular Technologies has issued an obsolescence notice declaring that their SCSI interface PCMCIA internal receiver bays will be made obsolete. They have advised there is no direct replacement.

These components are used in the D7000 Series media cartridge type SMPC and in the related GSR Series ground replay station. Therefore Zodiac Data Systems (ZDS) will withdraw these products from sale as follows:

**Last time buy date for products containing PCMCIA SCSI Receiver –
31st MARCH, 2011**

As an alternative to the above products ZDS does offer cartridges and replay stations based on the Audavi HardTape media device which is also a compact “pocket size” media suitable for portability.

If you have any questions concerning this notice or require further information and assistance regarding potential effects on your logistics, please contact a ZDS technical representative at (770) 753-4017.
